

Welcome to the Whitewater Bark Park!

Our purposes, in the creation of the Whitewater Dog Park, fill the needs of many individuals as well as the needs of our dogs: a safe place for our dogs to run and play off-leash, developing new friendships with other dog owners, exercise for the humans as well, and another avenue to help retain the sense of community.

Where is the dog park?

The Whitewater Dog Park is on the Northeast side of town, in our Industrial Park. Take Highway 59, also called Newcomb Street and turn east on Commercial Drive.

Be Aware of Hazards at the Bark Park...

- Many of the plants, fungi, and water sources in the parks may be poisonous to your dog.
- Vegetation may have burrs or seeds that could get tangled in your dog's coat or lodged in your dog's feet, ears, or eyes.
- Wildlife is common in the parks, and your dog does risk encountering a wild animal. Wild animals, particularly skunks, raccoons and badgers, could injure your dog. Rabies infection is also a risk when dogs encounter these animals.
- "Batchers," or dog thieves, have been known to nab unleashed dogs when they are out of the owner's sight.
- Dogs can easily become lost in the parks, especially in winter when their sense of smell is less keen because of the cold and snow.
